Volunteer Education Opportunity

“Adjusting to A New Normal”

Jan. 3rd at 10:00 -11:00 a.m.

CHC Meeting Room, 21 Angeline St. N

Community Care volunteers meet incredible people as they serve community members within the City of Kawartha Lakes. We meet people who are overcoming adversity in their day-to-day lives, learning to live with a new diagnosis, and struggling with declining health.

CCCKL Volunteer Services is pleased to introduce Manley Lavender, a man diagnosed with Myasthenia Gravis, Rare Muscle Disease & Peripheral Neuropathy in 2021, after living with the symptoms since 2014.

An inspiration to many, his story will reflect upon the losses and learning that come with a life changing diagnosis. Manley shares that prior to his symptoms, he enjoyed being a triathlete, ice hockey official, Scout leader, adult facilitator/Health & Safety Compliance Auditor, avid hiker, and outdoor enthusiast.

Please join your fellow volunteers to learn and be inspired by a local community member as he shares his story of overcoming adversity.

All CCCKL Volunteers are welcome to attend. Attendance at the event will count as educational hours for Hospice volunteers.

HOPE TO SEE YOU THERE
